Biographie

Biography

Caroline Vang (b. 1995) is a Copenhagen-based 3D artist creating immersive, hyper-real visuals that blur the line between organic and synthetic. With a Master's in Graphic Communication Design from The Royal Danish Academy, Vang transitioned to 3D motion to explore materiality and sensory depth, leading her to work with a wide range of clients within culture, fashion, tech, cosmetics, and jewellery.

Drawing from natural textures and unexpected forms, her work brings a tactile, almost physical presence to the digital realm. Through 3D motion, she crafts sensorial narratives that invite viewers to experience her work as something felt as much as seen.
